## Education

### Istanbul Aydın University

B.Sc. in Software Development, GPA: 3.30/4.00

Istanbul, Türkiye

Sep 2022 – Jun 2026

## Experience

### Aras Kargo (Aras Digital)

#### Junior Software Engineer

Istanbul, Türkiye (Hybrid)

Mar 2026 – Present

- Develop NESY logistics platform features across a .NET Core and Angular stack.
- Build event-driven Kafka services for asynchronous cargo and document workflows.
- Optimize MongoDB aggregation pipelines and Redis caching to cut API response times.

### Aras Kargo (Aras Digital)

#### Software Development Support Specialist

Istanbul, Türkiye (Hybrid)

Aug 2025 – Feb 2026

- Implemented .NET Core backend services and Angular UI components for the NESY platform.
- Resolved production bugs in cross-table status sync and invoice period scheduling.
- Integrated MinIO and Azure Blob Storage operations and a Kafka-based PDF pipeline.

### Aras Kargo

#### Software Developer Intern

Istanbul, Türkiye (Hybrid)

Sep 2024 – Jun 2025

- Built features for an AI-powered code review tool to help developers catch bugs faster.
- Refined AI review features for a smarter, faster, and more reliable review process.
- Developed small Aras Kargo project websites, gaining hands-on web development experience.

## Projects

### TailwagHaven – Pet Care Mobile App

[appelix.com/apps/tailwaghaven](https://appelix.com/apps/tailwaghaven)

- Built and published a cross-platform (iOS & Android) pet care app with React Native and Expo: vaccine tracking, feeding/water reminders, pet profiles, and a Google Maps vet locator.
- Implemented offline storage and animated UI; ran paid UA campaigns on Meta and Google Ads.

### Ovlo – Budget Tracker Mobile App

[appelix.com/apps/ovlo](https://appelix.com/apps/ovlo)

- Shipped a personal budget tracker for iOS and Android with native home-screen widgets (Swift WidgetKit, Kotlin).
- Managed pricing and in-app monetization across the App Store and Google Play.

## Certificates

### Meta – Introduction to Front-End Development

[View Certificate](#)

Front-end fundamentals: HTML, CSS, responsive design, and modern UI frameworks.

## Skills & Interests

**Programming Languages:** JavaScript, TypeScript, C#, Java, Python, C++

**Web Development:** React.js, Next.js, Angular, Node.js, .NET Core

**Mobile Development:** React Native, Expo, Swift (WidgetKit), Kotlin

**Tools & Infrastructure:** Git, Docker, CI/CD, Linux, Kafka, MongoDB, Redis, Bash

**Languages:** Turkish (native), English (fluent)

**Interests:** Building and shipping side projects, algorithmic problem solving, and designing user-friendly applications.
